KITCHEN PRAYER

Lord of pots and pans and everything,

Since I've no time to be

A saint by doing holy things,

Or watching late with thee;

Or dreaming in the dawn's light

Of storming Heaven's gates,

Make me a saint by cooking meals,

And washing cups and plates.

Warm up the kitchen with Thy love,

And light it with Thy peace,

Forgive me all my worrying,

And make my grumblings cease.

Thou who loves to feed men,

In homes and field and sea,

Accept this service that I give,

I do it all for Thee.

*"A woman who loves to cook is at
peace with herself"*

FOREWORD

To most people, cooking is one unglamorous career for it means dressing chickens, cleaning fish and sea foods, peeling potatoes and letting down some tears every time you slice the onions. But when the young ones gather in the kitchen, not minding a spatter of grease on the new dress or some flour powder when a sudden breeze invades thru the kitchen window, it is perhaps because of the old saying that "the best way to a man's heart is thru the stomach". Mother's mission around the kitchen, however, is different. Hers is the job of planning menus to help Carmen in her slenderizing diet and Junior to gain more weight or to satisfy Daddy's ravenous appetite after a tennis match. Her stand in the kitchen embraces the knowledge of meats, birds and fish, plants, herbs and spices, the economy of ancient homemakers and the chemistry of the modern scientist for all of this is within the radius of the culinary sphere.

Just as one person is given the stroke to create beautiful pictures with paints and brushes, and another the ability to set down into musical masterpieces the melody lying in his heart and soul, any woman with a little imagination can also create cakes, salads, and pastries that are works of art.

We can talk of art and beauty in endless ways, but the minutes are ticking fast on the big kitchen clock and before long we'll be hearing, "I'm hungry, when do we eat.....?" So when the folks poke their heads into the kitchen door and ask, "What's cooking....?", you can give the ready answer from this book.

44 Choice Recipes

A man-about-town, strolling along the city's smart district met his old friend from the countryside. Indeed the meeting called for a celebration — so, inside a bar, the city guy asked the country mouse, "Will you have a cocktail?" But the poor one, not understanding what a cocktail meant whispered into his friend's ear something that made the bartender chuckle. For he said, "Would you mind if I'll have the cock's wing?"

A company of soldiers was once invited to a military dinner. When they were all seated around the dinner table generously laden with food, the captain addressed them, "Boys, we are now ready to begin our offensive; I therefore command you to treat the food and wine as you would the enemy." The soldiers then enjoyed the dinner, but as they started to leave, the captain saw a private hide a bottle of whiskey in his pocket. The accusing eyes of the officer hit the boy, but he explained, "Sir, I'm only obeying orders — what we don't kill we take prisoner".

A few months ago our friend Noli was jilted by the girl friend who found a guy who is "tall, dark, and has-some". Noli felt so broken-hearted we tried to convince him that "hearts do not really break— they just crack a little but still go on beating". But in answer to this, he tried to drown his sorrows with wine.

Then last week, at a cocktail party, Noli gave me a pleasant surprise by not taking a drop of liquor. So when the last guest had said goodnight, I asked for the explanation of the sober change and he said, "What's the use of drowning the sorrow that has already learned to swim?"

But to you whose sorrows have not yet acquired the swimming technique, here are more cocktail formulas:

Some years ago, a lovely song swept the country —. "Fools rush in, where angels fear to tread...." So tremendous was its popularity that it had become almost a proverb. Incidentally, the old version runs— "Dolts proceed at full gallop where heavenly inhabitants are apprehensive of promenading".

In the early days after Liberation, he was a clever guy who opened a bar, because it offered good business in those days. But more clever was that one who hung this sign:

FOOLS RUSH INN
(where angels fear to tread)

To make the story short, the most popular cocktail in that inn was called:

ANGEL'S KISS (WOW!)

- 1 jigger Creme de Cacao
- 1 tbsp. heavy cream
- 1 cherry

Pour liquor into glass. On this float heavy cream. Top with cherry on toothpick resting on rim of glass.

P.S. A perfect drink for one who wishes to "rush in"— but if you take too much, careful buddy, you may be kissing angels without wings.

To be taken the morning after?

People, like many other things become dull when alone. Perhaps that was why God, seeing Adam so lonely in the garden of Paradise, took a rib from him and created the first "loudspeaker".

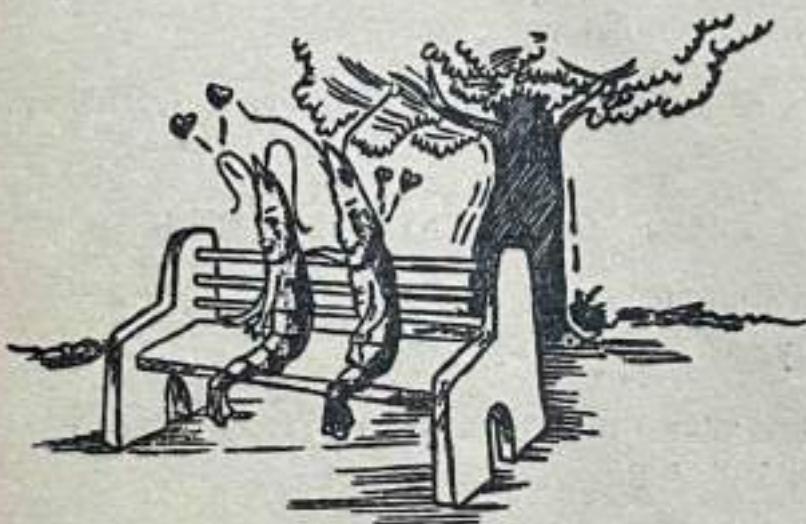

And when Noah (he was considered the greatest financier "for floating a corporation when everyone else was in the state of liquidation") started his journey on the ark, the animals and birds he took along were in pairs.

And so, following the natural laws, a cocktail would also seek the company of a canape or appetizer to get its sparkling glory.

CANAPES

The canape is one of the most important figures in the stage of cocktail accompaniments so that it pays to dramatize it well. Since it plays a leading role, the hostess should try her best to give what it deserves.

The real definition of a canape is "an open-faced sandwich". The bread is cut in squares, rounds, triangles or fingers, as the filling may demand. Sometimes, on more special occasions tiny crackers are used. The prepared filling is spread on the bread, then the tops are garnished.

BLUSHING SHRIMPS

2 tbsp. peanut butter
2 tbsp. cream cheese
1 tbsp. curry

Salt

1 tbsp. red wine
6 boiled shrimps

Mix first 5 ingredients; spread on crackers. Top each canape with shrimp which had been marinated in lemon juice.

Make a white sauce of butter, flour, and milk. Add crab
meat, cook for a few minutes. Cool, spread on toast,
garnish with pimiento strips.

SALMON CANAPES

1 c. shredded salmon
Lemon juice
2 tbsp. mayonnaise

Combine ingredients. Spread on toast or crackers.
Tuna, crab or lobster may be used in place of salmon.

CHICKEN A LA KING

2 tbsp. flour
1 c. milk
1 c. chicken stock
2 c. cooked chicken, chopped
1 pimiento, chopped
6 button mushrooms, sliced
Salt and pepper

Melt butter; blend in flour and seasonings. Add milk and chicken stock gradually, stirring constantly until thickened. Add chicken, pimiento, and mushrooms. Cook a few minutes. Serve on split hot biscuits, toast, patty shell, or tiny crackers.

Tuna, shrimps or flaked crab may be used instead of chicken.

CANASTA CANAPES

Serve chicken a la King on rectangular pieces of toast. Garnish with pimiento cut-outs in the form of hearts, clubs, spades, and diamonds.

If there ever is a popular duo gracing the comics page, it's none other than Mutt and Jeff.

In a tavern one evening, the inseparable pals dropped by for a drink. Once seated on a dark corner by the bar, they found out they had not enough money for two drinks. Luckily, Mutt thought of an idea. They would order one single drink for the two of them, one half for each. Jeff then started drinking and to Mutt's dismay, finished the drink to the last drop. Angered and ready to strike, Jeff explained, "With your half on top, how could I have sipped my share which happened to be at the bottom?"

The bartender was amused, and as a peace offering, gave Mutt a mild cocktail with some special canapes.

Marinate fish and shrimps in lemon juice. Heat white sauce over a low heat. Add the rest of the ingredients. Serve on crackers.

APPETIZERS

Appetizers are tiny morsels served with cocktails before dinner — not to satisfy, but to whet the appetite. For this reason they should be light, small and pleasing to the eye.

Try to make them attractive and colorful. The hostess can use a little imagination to create appetizers that would surely be the talk of the party.

Now, we have grown older and perhaps a bit wiser—and found out that the fastest is indeed the "tell-a-woman". It has no wires, no codes, and oh! so easily transmitted over the back fence! If you saw the movie that gained an Oscar for Jose Ferrer, you will remember the greatest swordsman and lover of all France — Cyrano de Bergerac. For who can forget the poetry that only Cyrano could recite, and who would not actually know the deep feeling of Roxanne when she said, "I have never loved but one man and yet I have lost him twice.....?"

Perhaps only time was able to cool the burning ache in Roxanne's heart after Cyrano was gone. And to us, on hot summer days when the burning rays of the sun drench our minds of poetry, chilled foods can help our memory so we can recall that Frenchman's immortal lines. Try serving:

A chef from old Marseilles caught a nap in his kitchen one day. The tide came right into his kitchen floor, seaweeds came swaying, and the music of the waves lulled him to sleep. A dozen clams, some fish, 2 debonaire crabs, a gang of pretty shrimps and a handsome lobster arrayed themselves before him, and to the beating of the waves on the strand, performed a concert.

So perfect was the harmony — and perhaps this was why the chef, upon waking up from his dream, gathered the same concert participants but instead of a stage, he utilized his soup kettle to give to the world the culinary symphony of fish and sea foods in this famous:

Basking in the glory of the Golden Gate Bridge is the lovely city of San Francisco. Nestled among rolling hills, this enchanting paradise is so captivating that anyone who has stayed there, after leaving, always says, "I left my heart in San Francisco."

Aside from the skyscrapers, the breathtaking view of the gleaming bay, the pagoda roofs of Chinatown, the cable cars that seem to have run away from Disneyland, perhaps the most authentic landmark of this busy metropolis is Fisher-man's Wharf. Crowded as a subway, bright as cotton candy,

In one of the wharf's restaurants frequented by my brother Jess and his friends, they serve this specialty:

Every June, when the tides rise high and a big full moon (with one naughty little star beside it) strides across the sky, all the fishes of the undersea kingdom hold a "meeting of celebrities". The shark calls himself the terror of the deep; the whale says he is a swimming fountain; the red, blue and gold fishes are the a-go-go dancers against a backdrop of beautiful corals. A few yards away from this pageant, a tiny, silvery fish is partly hidden among the seaweeds. Out of jest, the big fishes ask the dilis, "and what are you?" Meekly, it answers, "People say I am brain food."

Talking about size and brain reminds me of this anecdote: When our own Carlos P. Romulo was ambassador to the United States, on one occasion, he was invited to a social gathering. As he moved around with Americans, one of them asked him, "How do you feel among these big tall men?" And CPR, with a twinkle in his eye and that characteristic grin, answered, "I feel like a dime among nickels."

Knowing the mental alertness of CPR makes one wonder, is the dilis his favorite fish?

Once upon a stormy night, a lawyer sneaked into the Kingdom of Heaven, on the allegation that he was served a subpoena from the Celestial Court. At the gate, he lost no time in interviewing St. Peter.

"How long have you been gate keeper?"

"I can no longer remember."

"Are you receiving fair wages? Are you secured with a retirement plan? And what about overtime and gratuities?" He then took St. Peter aside and whispered, "Tomorrow, with your affidavit, we will file charges."

When the Almighty heard this, He summoned all the Archangels and instructed them to guard Heaven's gates against lawyers.

A man was once asked what 3 things he wanted most in order to be happy. And this was his answer: "Give me an American passport, a Japanese wife, and a Chinese cook."

This statement is not surprising, for we all know that a Chinese cook is a wonderful person around the kitchen. Sometimes we consider his recipes the deepest mysteries behind the Great Wall, because we cannot fully fathom the ingredients, herbs, and spices he uses in his chow meins and steamed chickens. He can make soup from birds' nest and shark's fins, he adds mushrooms and fungi to meats and fish, he flavors his stews with the exotic smell of lotus flowers.

On these days however, the Chinese culinary art is no longer a mystery, although most Chinese restaurants keep their own treasured secrets. If you take good recipes and keen observation on their intricate dishes, these may be the open sesame to the tasty Chinese cookery, the most wonderful in the East.

I had an uncle who was one of the sweetest persons I knew. He was kind and considerate, courteous and accommodating. When he married, everyone said the woman he took for a mate was a very lucky person. (Talking about mates reminds me of how marriage can lower a man's rank. Remember Dewey of the Manila Bay battle? Well, after his wedding day, he ceased to be an Admiral, for then he became his wife's second mate. Going back to my uncle, their marriage was perfect until that day he had a stroke. You know how a sick person acts. He gets nervous even in casual situations, it takes so little to irritate him. But my auntie, a clever and practical woman, told me, "Every time your uncle forgets himself and I see a storm signal in his eyes, I just cook something delicious to eat and thank Heavens, he always calms down."

But sometimes, before the first anniversary is around, we hear screams, and see broken cups and flying saucers. Over the black fence (which is the shortest and quickest way of communication among neighbors), we get the story.

The man came from the office hungry and tired. Lunch was ready in the kitchen alcove, the radio was broadcasting his favorite mid-day program... but when he ate the steak, he banged his plate, and giving the little woman a furious look, exclaimed, "Nora, when you give me steak, I don't care if it is horse meat — only, don't forget to take off the harness".

They say that men are just grown-up boys who like to be pampered. They love an occasional highball, coffee (which in order to be good must be black as the devil, hot as hell, but pure as an angel), war pictures, shapely legs and thick steaks usually done rare.

Here is a popular steak recipe from Texas, the land of ranches and strong men.

RANCHERO STEAK

Steak, panbroiled
2 cloves crushed garlic
2 onions, sliced
2 tomatoes
2 red hot peppers
4 tbsp. chopped olives
Flour to thicken
Salt

Into the pan where the steak was cooked, put some water, scour the bottom and sides and keep the drippings.

In a little olive oil saute the garlic, onions, and tomatoes. Add the drippings, salt, olives and flour. Add red hot pepper. Pour sauce over steak.

*Though we cannot hope to hold
The splendor in the grass,
And the crowning glory of a flower,
Let us grieve not, but find joy
In the things we leave behind.*

This poem was the theme of that beautiful movie which philosophy is so inspiring and worth remembering. It was the story of a love that was lost between two young people, and how its immediate effect nearly cost them their minds and lives.

But as the saying goes, "time heals everything". Time made the boy and girl older and wiser. Time made them find joy in the things they left behind. Time gave them other loves, more real and lasting than the one they thought they had lost.

The boy in the movie found his true love in the person of Angelina, the simple girl who became his wife and the crowning glory of his home and kitchen, because she was a superb cook.

After that embarrassing incident one night, my cousin Luis does not want to go to a party again. It all happened after losing in a card game of Truth or Dare. The girls dared him to sing and that was the tragedy. In his nervous situation, he remembered a song of Mario Lanza. Then he began singing, admitting that sometimes the notes detoured from the natural course. The song was almost ending when a bulky policeman came and said, "Pardon me, but you are under arrest". The thoughtful hostess immediately came to his rescue. "What for?" she asked. And the officer answered, "We just got a call in the station that Maro Lanza's song is being murdered in this house".

That unpleasant incident however gives me a pleasant opportunity to give you the tenor's favorite dishes the recipes of which come from his native Italy.

However, try to humor the "little fool" by cooking his favorite dishes.

In a certain New York apartment a group of Filipino students gathered one evening to relieve their nostalgia for rice and adobo. As they sat down to begin supper, there came a knock. The hostess opened the door and to everyone's surprise, they saw a big Irish policeman, with the badge of authority written all over his six feet two. He came to investigate, because the whole neighborhood complained that a very strange smell was coming from the Filipinos' apartment. The students explained that they were merely having a feast of rice and adobo, and invited the policeman to join them. Few minutes later, leaving the apartment to be on his beat again, O'Brien, the policeman, came across those neighbors who had asked him to do the investigation. With a merry twinkle in his blue eyes, he addressed them, "My friends, the next time you smell that funny odor again, don't forget to call me".

Our grandmother used to say that the hardest thing to accomplish is to smuggle the dawn past a rooster. To crow at dawn is its duty, habit, and perhaps joy. From a magazine comes this clipping:

LESSONS FROM ROOSTER

You can improve your leadership ability if you follow the example of the rooster.

1. *He rises early and immediately begins his God-given task.*
2. *He doesn't refuse to crow because he cannot sing like a canary.*
3. *He does his work without seeking praise.*
4. *He proclaims good news: the arrival of a new day with its privileges and responsibilities.*
5. *He is dependable.*
6. *He is persistent.*
7. *He never complains about having to do the same common tasks.*
8. *He doesn't worry about compensation or recognition.*

History tells us of the power and conquests of the great Napoleon, his wonderful memory and his victories in many lands.

Long before his Waterloo, it is told that one day, Napoleon's troops won a battle in a place called Marengo. The victory was great and therefore called for a celebration, but to the cook's dismay, the carriages that were carrying the food supplies were blocked in a remote sector. Fortunately, going around the devastated village, the cook found 2 chickens, a bottle of wine, olive oil and a few mushrooms. That was the supreme test of the cook's ingenuity — and a well rewarded effort as well, for at supper, the great Napoleon summoned the cook and pinned on him the biggest medal of merit.

The Emperor's victory and the cook's culinary triumph are recorded in this famous recipe of:

I have a friend who said that two people playing poker are like two people in love. It starts with a pair, the woman shows a heart; the man wins it with a diamond; and later they end up with a full house.

My mentioning about poker is not that I have an interest in the game. I have an auntie whose house was once the den of poker players. Perhaps because the poker players were mostly gourmets who loved good food, my auntie and I had to dig up our cook books and overtax our imaginations in order to satisfy the ravenous hunger of the winning party or the jaded appetite of the poor loser.

The following was a perennial favorite:

CHICKEN GALANTINA

At a party we had once, my uncle was being congratulated by a friend. "Steve", he said, "your wife made a very amusing speech at the club meeting". "I'm not a bit surprised", my uncle whispered, "She has been speaker of our house for the last 10 years".

But believe me, that is not the only achievement of my auntie. She dances gracefully and can cook ducks and pigeons to perfection.

THE AMAZING MRS. HEN

The Chinese cooks glamourize their ducks; the Americans adore turkey roast; the Belgians love rabbits in a stew; but considering its fine-and delicate taste, I take off my hat to Mrs. Hen.

Aside from its importance in the line of poultry, the hen gives us her eggs with its hundred and one uses. Although her eggs are not like "the golden ones laid by the goose", no weight in gold can buy the delight we all get from Mrs. Hen's patented product.

When we were children, I remember we had a cook named Regino. My brothers and I loved him very much for his jovial spirit; for the plaintive kundimans which he played with feeling on his borrowed violin and above all, for the delicious dishes he prepared every time there was a fiesta in the house. The savor of his soups was the talk of the town; his croquettes were creamy inside and crisp outside; but what I cannot forget is this superb Spanish vegetable stew which he called:

Perhaps you still remember the story of Jack and the beanstalk that grew so high it touched the sky. Jack one day climbed the beanstalk that led him to a beautiful country high above the clouds and to a castle in the middle of a lovely garden. Unfortunately that castle belonged to a fierce giant whose favorite stew was made from human meat. The giant's wife, however, was a kind and understanding woman, and when she saw her husband coming, hid Jack in the big oven in her kitchen.

Visiting the castle became Jack's favorite pastime especially when he found the gold lyre and the golden hen in the giant's possession, these treasures belonging once to his father. Jack's recovering the treasures could not have been possible without the help of the giant's wife who always hid Jack in the kitchen. But why, we might ask, was this woman so kind to this stranger boy? Perhaps it was because every time Jack climbed the beanstalk he always gathered the tenderest beans and gave them to his benefactor.

SALADS

58 Choice Recipes

Do you still remember Aesop's fable about the turtle and the rabbit, and the race they had? Well, the story ends with the turtle arriving at the goal first because of his constancy and patience; but the rabbit, too confident in himself, slept under the shade, roamed in the fields, and therefore lost in the race.

But if you stop to think and discover what kept the rabbit roaming in the fields, perhaps you'd give 3 cheers to Mr. Bunny. For in those fields were cool fresh bunches of lettuce, pink radishes, golden carrots and crisp cabbages. What more could his bunny heart desire? When a man marries he sometimes loses some freedoms — like the freedom of circulation and the freedom of speech around the house. In compensation, however, he also gains other freedoms. He can invite his buddies to snacks after an afternoon of golf; he can enjoy freely the well prepared meals cooked by the better half; he can even bring the boss home to dinner to celebrate his raise.

With these new freedoms gained, can a man afford to regret? Certainly not, especially if the wife's cooking is something to brag about. So, the next time his cronies drop over for a cup of coffee, serve them these:

It happened that John, let us call him, fell in love with one of the maids; but he was so poor that when the day of the wedding came there was no money for a wedding ring. Fortunately, the baker thought of something. He took a tiny bit of dough, rolled and fitted it into the bride's finger. He slipped it into a pan of oil and cooked it to a beautiful golden brown. Then, one stormy day in August, via newspapers, we learned he got married. We met a few years later and saw that he looked like the contented cow. The reason? Peace and love!

William Saroyan's "The Human Comedy" is more than a classic. The threads of hardships, grief and joy are interwoven into the fabric of "life" with such candid artistry and deep feeling that the reader cannot help but imagine himself being part of that life.

One facet of the story one remembers is the love of a mother for her son; how she helped him and stood by during his low moments. According to her, "There will always be pain in things; hate dies every minute, but love is immortal." Takoohi was her name — that patient woman who was a good mother and an equally good cook.

A naughty radio commentator defined a politician as a person:

Who shakes your hand before election, and your confidence later.

Whose greatest asset is his lie-ability.

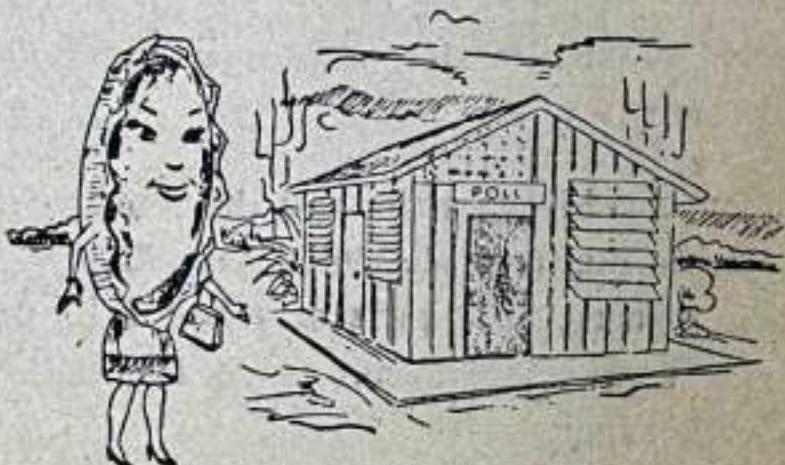

Who has the art of obtaining money from the rich and votes from the poor, on the pretext of protecting one from the other.

*Whose favorite song is I Get A Kickback Out Of
You.*

Who makes life a bed of ruses.

Whose favorite dish is the political pie.

*But I know a politician who is a wonderful person.
His hobby is not speech making, but puttering around
the kitchen, helping his wife baking cakes (for himself
and the voters). This is his specialty.*

As one studies the different governments of countries all over the world, and their prevailing weaknesses, perhaps there is reason to believe that "the best form of government belongs to the beehive".

In the Bee Kingdom, the queen, soldiers and workers have their own particular duties to perform, and each one does it with the highest sense of loyalty. The worker bees sip the flowers' nectar and transform it into honey. After some weeks of hard work, they drop on distant meadows, these tiny unsung and unknown heroes that die in the line of duty.

The honey is stored in their house of wax which cells are perfectly equal to one another that they are the greatest marvel and challenge of modern engineers. And even chemists cannot fully analyze the components of "this purest kind of sugar".

In partaking of this delicious gift from the bees, let us bear in mind that it is the product of hundreds of "dedicated little lives". May their message of loyalty to duty inspire all men!

Once we had a cook who was absent-minded and stubborn; and altho' she did not know the difference between a and z, she would pretend to read my precious cook books, staining the pages with grease. There was a time when she forgot the baking powder in a recipe so the finished biscuits were hard as bricks.

One day, when she became just "impossible", my cousin commented, "hoping for a reformed Lucia is like expecting rain in the Sahara".

Fortunately, after months of scolding, coaxing, and patient coaching, she finally made a grade. And her specialty is the following:

Cooks are sometimes very unfortunate people. For after a hot day in the kitchen stirring jams, baking pastries, and making cookies, people outside the kitchen door call us cruel—and simply because we pull the corn's ears, beat the eggs and whip the cream.

But if beating the eggs is essential to get the best result, go ahead with the job, dear fellow kitchener. And when the cake is done and the delicious smell invades the front porch, I bet my rolling pin that those brats would change their minds.

A chiffon cake, for instance, gets its airy lightness from the proper beating of the eggs.

Do I hear anyone mention anguish? Oh yes, when I hesitate to cut the cake for the young ones, these boys murmur something about suing me for giving them mental anguish and gastronomical torture!

A husband came home one night from an architects' meeting and started telling his wife about the new designs of houses and apartment buildings. Lydia was at first attentive, but later, perhaps recalling the baking failure she had that morning, sighed and said, "Pepe, you can have your buildings 7 stories up in the sky... what I aspire is just an angel cake 5 inches high".

You may think Lydia had an insignificant ambition — but don't you think a perfect angel cake is the crowning glory of a cook's culinary art and therefore worth her aspiration?

With that ambition in mind and a recipe on hand, hitch your egg beater to angel's wings and bake a cake that's fit for angels and men!

ANGEL CAKE

1¼ c. cake flour	1 tsp. vanilla
½ c. sugar	½ tsp. salt
1½ c. egg whites	¼ tsp. almond extract

Place flour and sugar mixture in sifter and sift about 4 tbsp. at a time over the entire surface of meringue. Fold gently until blended.

Push batter into ungreased angel cake pan, being careful not to stir it. Cut through batter with knife to break large air bubbles. Level batter and be sure it touches sides of pan. Bake for about 40 minutes, reducing heat before cake starts to brown.

"Once upon a time", so the story goes, "there lived a girl who had a step-mother and two half-sisters. She was very beautiful but was made to stay in the kitchen among the cinders and so was called Cinderella."

We remember the pumkin that was transformed into a coach, Cinderella's wonderful gown to the king's ball, and her dance with the Prince. But the climax of this tale was when Cinderella, at the stroke of twelve ran away from the Prince, and in her hurry, left behind one of her glass slippers. Prince Charming, in his effort to find Cinderella, sent men from his court to look for the owner of that slipper.

Every fairy tale ends with "they lived happily ever after", and so the author did not bother to add this little incident. As the royal couple rode on the coach that was to take them to the crystal palace, Cinderella made a confession.... when the men from the court invaded the kitchen to ask her to try on the slipper, Cinderella was baking a cake. After giving the men slices of the newly baked cake, they totally forgot their "mission" and just concluded that a girl who could bake so delicious a cake certainly deserved to be the Prince's wife.

Right after that fateful day when Neil Armstrong stepped on the moon, the three men in our "pad" enjoyed among themselves speaking the space lingo. Whenever I would ask about their comings and goings, they would call me the "tracking station" from my easy chair at home, which, incidentally, became the "command module".

And so, one morning, when my teen-ager son came to a late breakfast, I looked at him and asked, "What time did you splash down last night?"

*Every person has his own interpretation of love.
The foremost Filipino poet, Rolando Carbonell says:*

Love is the miracle that shapes this world into a wonderland of beauty, hope and joy:

Love is the inspiration of artists, the wisdom of philosophers, the vision of prophets, and the hope of sinners;

Love is a thing we all seek to define but cannot...

But in "Love Story", Jenny and Oliver felt that "love means never having to say you're sorry".

Besides these two young lovers was another gentle person — Jenny's father. Phil was a good baker, and on his daughter's wedding, he baked this:

Two friends, after having died for some years, came back to earth for a visit. Incidentally, both came from the fires of hell, and one day, in a crowd, the two tried to outshine each other on what they had done while they were down below.

The first one, an engineer, seemed to have done a very outstanding job and was hailed as a hero. If they only had a government down there, he could have been elected to the highest post without the slightest opposition. For what could be a more wonderful achievement than installing an air-conditioning unit right in hell?

The other one, a humbler person, did not have much to say. Instead, she took out from the kitchen something she invented — a cake that she learned to bake in hell with the highest economy because she did not pay a single cent for electricity, firewood or gas. She called her specialty:

HOW TO COOK A WOLF (For Women Only)

Few days ago, one of my married cousins came crying to me, "The man I married is the worst specimen of humanity. Will you teach me how to cook him?" Too shocked to answer, I walked back and forth in my room and a few hours later, came out with this recipe on How To Cook A wolf.

First of all, scour him of the filthy language he uses. Let him stay in hot water for a while, to convince him that he married a lie detector. And later, when he has spilled everything, cut him up with dagger glances, not forgetting to add an occasional piece of your mind. But for Heaven's sake as well as yours and his, be sure the heart is intact. After all, you still love the guy, and he loves you too.

Now, when you are ready to cook the whole, place the ears underneath, so they won't hear the usual nagging. Season with sweet-sour sauce made by mixing acid words and a tender look; put on the fire of guilt and remorse. Hard-boil, but don't cook until soft, so that when you give him to the girls with whom he's been flirting, they would know he is tough.

With a chuckle, my cousin forgot her woes. She then asked me what potion she must prepare to bring him to life again (didn't I tell you she still loves the guy?), and after going over some files gave her this recipe:

Take a lovely day in December, fresh with the invigorating sting of a chilly wind; add the glimmer of tinsels and the radiant glow of candles on a Christmas tree; the laughter of children, the warm greetings of friends from far and near, Christmas carols sang beneath the light of lanterns and stars. Annette is a lovely girl. She has a lovely home and her kitchen door opens into a lovely garden. One day, when I stepped into her terrace, there she was, decorating a cake, with the pastel colors of the rainbow caught in swirls of frosting. I would have asked if she borrowed the colors from a painter's palette, but looking around, one could see that the blooming kalachuchi, the lavender orchids, the lush ferns and pink adelfas by the gate offered more. And on the brick wall hung a frame with this poem:

*If you want a mind at peace,
A heart that cannot harden,
Go, find a door that opens wide,
Into a lovely garden.*

It was one night when the skies taught man below the true meaning of democracy — by letting even the smallest stars come out. One of our very naughty cousins winked at me and said, "With all those lovely stars above and the right partner, I can afford to get lost".

If we take Hollywood, stars are linked with movie sets, cameras, and directors. The real stars, however, are associated with the astronomers. But don't you realize that in the firmament of cookery there are also stars that shine on our dinner tables? And believe me, these stars sometimes give more happiness to the world than a new comet, with its blazing light trailing behind.

Going back to our naughty cousin, at last she found the right partner. Unfortunately, the lovely stars were not around when she hooked him. It was this delicious custard that made the poor guy see the moon and stars in broad daylight.

A humorist has said, "Imagination is something that sits up with a woman when the husband is out late".

Putting the joke aside, you will agree that imagination is a wonderful asset. It creates the fascinating

character of the best-sellers, it kindles the fire of inventiveness, it advances the progress of science, jet planes and rocket ships, missiles and space trips.

However, if you are one who hates math and diagrams, you cannot use your imagination in designing planes and ships; if you do not possess a prolific pen, there's no hope for your becoming a writer. But don't despair, dear lady — for you can use imagination in preparing foods, cakes and desserts to charm the world, and perhaps prevent the better-half from staying out late.

At a testimonial dinner in honor of an Air Force hero, one of the guests was a movie actress, famous for her beautiful shoulders. For this particular occasion, the young lady wore a lovely strapless gown, the color of a tropical summer sky. And to further enhance her features, she wore a gold choker with an interesting pendant — a tiny gold airplane.

As the guests were introduced to the hero, everyone noticed that the war veteran's gaze was fixed upon the lady's pendant. Completely aware of this, she asked, "Do you like my little trinket, Colonel"? And he answered, "It's very cute, my dear; but believe me, I was not looking at the airplane I was admiring the landing field".

This story about airplanes reminds me of Edith, a flyer's wife who had been a good neighbor for years. She was a good cook and shared with me some of her choice recipes.

Three weeks ago we made a new acquaintance in the person of a six footer blonde whose big eyes were like "two spoonfuls of the blue Atlantic". My brother and he became good friends, and one afternoon, at tea, when we served him a wedge of apple pie, he asked me, "Do you know that apple pie is as American as the stars and stripes?"

Although I agree that is true, anyone (regardless of race) can enjoy eating this luscious delight. For there is no law limiting the cooking of apple pie to the American people alone.

Bless that freedom-loving country . . . !

They say that "a woman flies away from temptation, but a man walks away from it slowly — with the cheerful hope that temptation will overtake him".

One evening, after supper, as we were gathered on the terrace, some friends and I were discussing about temptations and their dangers to the soul. Then one of the boys, who is rather notorious for his ravenous appetite stood up, and landing his hands on his belly, said. "The only temptation I can't resist is food." Then dashing to the kitchen, he took out from the oven this:

burden or punishment but as a dream of beauty we can
make real".*

It was the English poet Shakespeare who said, "The man who has no music in his heart is only fit for treason, strategems and spoils; let no such man be trusted" When we think of music, naturally we associate them with the composers. The immortal masterpieces that came from the artistic souls of Chopin, Lizst, Debussy and the other great masters belong to a priceless heritage, to keep and love, to cherish and remember.

As a tribute to those great composers, try the following recipes:

At one time, I said something about betting my rolling pin, but on second thought, I'd rather lose my favorite book or new dress than this versatile, useful and convenient tool perched so placidly on the red kitchen shelf. Aside from its useful job in rolling biscuits, cookies and pastries, this harmless-looking and innocent kitchen tool is the source of many jokes, the fear of henpecked husbands, and usually the treasured trophy of a woman after the domestic triumph over a quarrel.

In a news item I found this: "Last Saturday, at the Women's Sports Club, Mrs. Reyes was proclaimed winner in the rolling pin throwing contest."

P.S. On the same occasion, Mr. Reyes won the 100-meter dash.

One of the members of our club is a lady — a sweet and gentle lady, who seems to grow younger with each passing day. Some of the girls asked her the secret formula for staying young, and she answered them with this lesson on:

HOW TO COUNT

Count your garden by the flowers,
Never by the leaves that fall;

Count your joys by golden hours,
Never when life's worries call.

Count your nights by stars,
not shadows —

Count your days by smiles,
not tears —

And on every New Year's morning,
Count your age by friends,
not years.

P.S. The lady mentioned also bakes the best pies in town.

Below the window of a friend's kitchen is a patch of blooming sunflowers. It reminds me of a Sophia Loren movie where she suffered a "loss of love". Nevertheless, she carried on bravely, and in the end, found another love.

Few days before the Liberation, while bombers and fighter planes flew overhead, one of my favorite cousins joined our hiding area amidst lush coconut trees in the little town of Carmen. On lazy afternoons, sitting on crags by the sea, she would read to me her collection of essays and poems, while watching the ever-changing patterns of clouds. I remember one particular line... "Don't be cynical about love, for in the face of all aridity and disenchantment it is perennial as the grass".

Just recently, this cousin surprised everyone by getting married while travelling abroad. When the happy news came, I remember once again that beautiful line she read to me many years back, while sitting on crags by the sea, watching the ever-changing patterns of clouds.

P.S. My cousin also collects recipes, and her favorite is this popular dessert the French call:

GATEAU SANS RIVAL

8 egg whites
2 tsp. vinegar
2 c. sugar
2 c. chopped kasuy nuts
 $1\frac{1}{4}$ c. sugar
 $\frac{1}{2}$ c. water
8 egg yolks
1 c. butter

Take 2 lightly greased pans (8 x 12 inches); line with wax paper, grease well then dust with flour.

Make a meringue of egg whites, vinegar and sugar. Fold in nuts. Spread meringue in prepared pans and bake in slow (225 F.) oven for about 40 minutes. Remove from oven; invert on sheets of wax paper. Peel off wax paper carefully. Cool.

Boil sugar and water until syrup forms a soft ball when dropped in a saucer of water. Cool slightly, then add gradually to well beaten egg yolks. Cool.

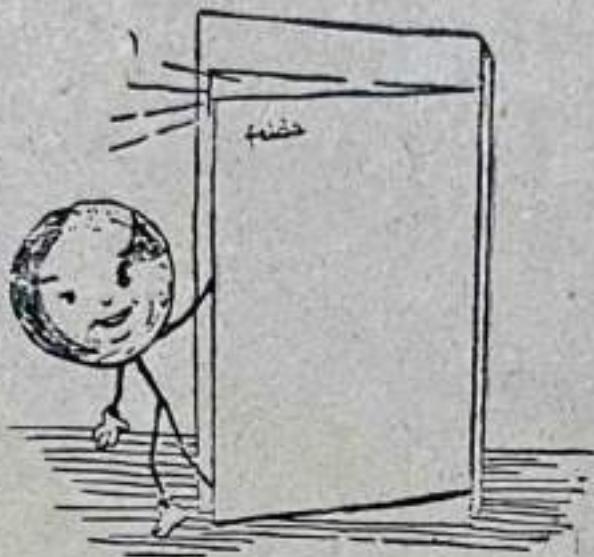

Cream butter; add egg yolk mixture until a creamy sauce is obtained. Use this sauce as filling between meringue layers, and to cover top and sides of "gateau". Sprinkle with more nuts and chill.

All around us are different kinds of food — the native, the imported, the cheap, the expensive, some rich in their protein value, others more noted for their mineral content.

But my sister Dolores says that "the most perfect food in the world is the milk of human kindness" Indeed we have every reason to believe this is true, but only as long as it remains sweet. The moment it turns sour, we can't make cheese out of it.

This subject about cheese is a pleasant opportunity to give you the following recipe:

PINEAPPLE CHEESE ICEBOX CAKE

- 1 c. crushed corn flakes
- 4 tbsp. sugar
- 4 tbsp. melted butter
- 1 tbsp. gelatine
- 4 tbsp. water
- 3 egg yolks
- 1 c. canned crushed pineapple (with syrup)

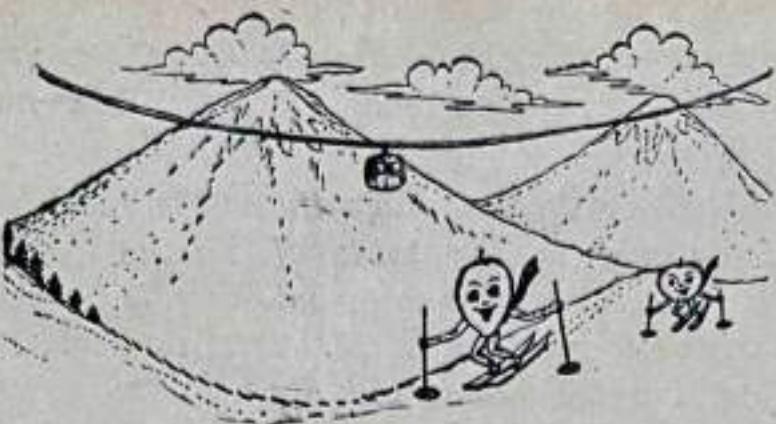

Grated lemon peel

- 2 tbsp. lemon juice
- $\frac{1}{2}$ c. sugar
- 1 c. cottage cheese, mashed
- 1 egg white, beaten stiff
- 4 tbsp. sugar

Mix corn flakes, sugar and melted butter; press into the bottom of a square pan, reserving about 4 tbsp. for topping. Chill.

Soften gelatine in water for 5 minutes.

Cook egg yolk, crush pineapple, lemon juice and peel, and sugar in double boiler, stirring constantly until mixture is thick. Add gelatine, stir until dissolved; remove from heat. Add cheese to hot mixture. Cool and chill. When mixture begins to thicken, add meringue made by beating egg white with the sugar. Place mixture in crust-lined pan, sprinkle reserved crumbs on top. Chill for 24 hours.

LEMON-ORANGE ICEBOX CAKE

Grated orange rind

1 lemon, juice and rind

¾ c. sugar

6 egg yolks

¾ c. butter

1½ c. powdered sugar

6 egg whites, beaten stiff

Lady fingers

Cook first 5 ingredients in double boiler until thick. Add slightly beaten egg yolks, cook for a few minutes, stirring constantly.

Cream butter; add powdered sugar gradually. Add the cooled custard, then fold in egg whites. Arrange lady fingers and custard alternately in serving dish. Chill for 24 hours. Cover top with cream.

"It is told that 4 centuries ago in Italy, Catherine de Medici was to be married to the king of France. Having in mind the hostess' role she was to play, Catherine valued her recipe collection just as much as her trousseau. One of her treasured formulas was for a frosted ice concoction that was more than a thousand years old. Ice cream became very popular in the French court and was considered an exclusive dish for royalty. But then, like all good recipes, it found its way out."

In America, they say that George Washington gave Martha a gift of 2 ice cream pots, the early equipment for ice cream making. Then, the hand-turned freezer was invented, launching ice cream as popular dessert. And today, whether in the form of sundaes, cones, or baked Alaska, ice cream is a perennial favorite".

Old Man Sol is indeed a naughty guy. When farmers beg him to make a retreat for a while so their plants would not be so blighted by his merciless rays, he ignores their pleas and goes gallivanting from sunrise to sunset. And when Carmen has all the plans for her birthday picnic complete to the last detail, this same naughty guy plays a lazy role. He refuses to keep his date, and sometimes, even asks Mr. Raindrop to be at the outdoor party.

On hot summer days, no amount of begging can keep the sun from making his journey across the sky. And so, to drive off the heat, one has either to stay beside a cool spring on a mountainside, lull in a bathtub, take cold iced drinks. Or better still, grab the ice cream freezer and eat ice cream to his heart's desire.

Our friend Gloria never wants to go bowling again. Perhaps because it reminds her of one particular day when something happened and her feelings then were like ten pins in a bowling alley, hit by a hurtling ball in a perfect strike.

But my sister Belen loves the game so much that a greater fraction of her salary and the bowling balls roll side by side in the alleys. Every time she comes home with a record of strikes and spares, she demands a celebration. Sometimes I doubt whether the pinnings are real; but I understand her cry of victory is simply an excuse so I would prepare some snacks and ice cream.

67 TIPS TO THE KITCHENEER

- The kitchen is the one place where a woman spends much time, so make it beautiful and sunny. Gay frilly curtains, potted plants and flowers can give anyone that happy it's-a-wonderful-world disposition.
- A good kitchen rule: After cleanliness, order. Things and utensils arranged in places where they are needed assure neatness and convenience. Plus a non-clutter atmosphere.
- Have several wall shelves for different uses — canned foods, baking ingredients and implements, appliances, cook books. Include a small volume on poetry, to read while the cake or roast is baking.
- Use small empty coffee jars for condiments — curry, pepper, bay leaf, paprika, garlic, bouillon cubes, and tea. Place on a narrow shelf near the range.
- Likewise, use big empty coffee jars of uniform size for beans, mongos, nuts, breadcrumbs, sugar, and fruit jams. Label.
- Old coffee pots and pitchers make lovely containers for flowers.
- Keep a supply of canned fruit juices. They are always handy when friends drop by. And a healthful sauce of vitamins and minerals for the family.
- Crackers and saltines make quick canapes as well as accompaniments to beverages, soups and salads.
- Keep ready a box of kropek for a quick and easy appetizer.

- Do not waste old bread. Toast, crush with rolling pin, sift and store in a glass jar. It has many uses in the kitchen.
- Recipe for calamansi syrup: Boil 3 c. sugar and 1 c. water. Cool and add to 1 c. calamansi juice. Keep in glass jar in refrigerator. 3 tbsp. syrup added to a glass of cold water makes a refreshing drink.
- For elegance, serve the simplest fruit juice in white stemmed glasses. Pass sugar cubes in a small bowl, and don't forget the silver tongs.
- To prevent discoloration, soak cut bananas and apples in water mixed with calamansi juice. Or use canned pineapple juice instead of water.
- Calamansi juice added to fruit preserves gives it a certain tang. It also makes the syrup glossy.
- A copper "tacho" and a wooden spoon are the best implements when making jams and fruit preserves.
- If there are left-over fried bananas, cook it with a little syrup. Flavor with sherry.
- Left-over boiled camotes can gain new dimensions in taste by cooking in syrup made by boiling sugar with orange juice and a little butter. Glazed camotes are perfect accompaniments for ham, pork chops or chicken.
- There are many tempting recipes using left-overs, so save every bit.
- While working, line table with newspaper to catch peelings of fruits and vegetables. Cleaning them would be easy and less messy.

- A steamer is an important item in the kitchen. Besides being a "must" for Chinese recipes, it is useful for streaming puddings, custards and puto. It is also best for reheating left-overs and frozen foods.
- For thickening, always dissolve cornstarch or flour in cold water before adding to sauce.
- Combine sugar and cornstarch for thickening cream fillings, and avoid lumps.
- Sour milk is made by combining 1 c. milk and 1 tbsp. lemon juice or vinegar.
- Lemon juice added to fish and seafoods not only enhances the flavor, but also removes the fishy smell.
- Sliced amargoso and carrots cooked with fish paksiw gives it a special taste.
- To take out bitter taste of amargoso, cut, soak in water with salt for about an hour.
- Try wrapping small fish in pechay leaves, then cook with seasonings in coconut milk.
- "Marinating" seasons food and enhances the flavor. It also serves to tenderize meats.
- The Chinese cooks always dredge cut meat with cornstarch before cooking. The coating seals in the juice and makes it tender.
- For breaded meat or fish, use equal amount of flour and cornmeal for crisp coating.
- When roasting fish or chicken, wrap in aluminum foil to seal in the juice.

- Bake foods that need quick browning on upper rack of oven.
- Don't throw away pickle vinegar. Use for marinating green beans, carrots, okra, and other vegetables. Set aside for a day or two.
- Quick dressing for cole slaw and other salads is made by combining bottled mayonnaise, sugar and a little vinegar.
- Always add salad dressings at the last minute.
- Powdered sugar is better than ordinary sugar for sweetening whipped cream.
- Spaghetti and macaroni should be boiled "al dente", which means tender and cooked through yet firm.
- Add cream of mushroom soup to spaghetti and macaroni dishes — for a special flavor.
- Moisten cooked empanada filling with condensed cream of mushroom soup. Or use it as dip for tiny empanaditas.
- Try using chicken stock instead of water when making empanada crust.
- To make mashed potatoes smooth, instead of ordinary milk, add scalding milk while whipping potatoes. The hot milk also melts the butter.
- Special scrambled egg: Cook in the usual way, but before the eggs are set, add some grated cheese.
- Quick egg appetizers: Cut boiled eggs in halves lengthwise. Cover yolks with mayonnaise, garnish with cooked shrimps.
- Serve creamed crab or shrimp on small shells.

- Sandwiches should be wrapped in wax paper, then with a damp towel. Store in refrigerator.
- Fried meat balls have many uses. Make in quantity and keep in refrigerator.
- Caramelize the sugar when making lumpia sauce.
- Do not put salt to steak before cooking, because salt makes it tough. Season after meat is cooked.
- For steak sauce, simmer for 10 minutes $\frac{1}{2}$ c. butter and 1 tbsp. Worcestershire sauce.
- Reduce heat by 25 degrees F. when using glass dishes for baking.
- Always measure dry ingredients first, so you will use only one cup. However, it is best to have an aluminum measuring cup for dry ingredients and a glass one for liquids and shortening.
- For cutting raisins, dates and marshmallows, use kitchen shears dipped in flour or confectioner's sugar.
- When baking cookies, line sheets with wax paper. This eliminates greasing.
- Drop cookies and refrigerator cookies save much time and effort, and are just as good as the rolled variety.
- For banana or apple fritters, dip sliced fruit into Fritter Butter to which dessicated coconut is added.
- A tablespoon of sugar added to pie crust mixture improves it. Some add 1 tsp. vinegar to the iced water to get a flaky crust.

- Roll pastry for pies between 2 sheets of wax paper — for easy handling.
- Don't forget to make slits on the upper crust of fruit pies, so that the juices will not run over the sides.
- Frosting on cake prevents it from becoming dry.
- Recipe for a glamour fruit compote: Place fruit cocktail in champagne glasses. Drizzle cointreau on tops.
- Dress ends of cocktail party skewers with white fringed tissue paper, if you value elegance.
- On hot summer days, serve soup in bowls over cracked ice. The same goes for shrimps marinated in mayonnaise.
- Originality is something one cannot buy at the supermarket. For a Tropical Party, garnish the drinking straws. About 2 inches from the straw top, attach a kalachuchi blossom.
- Serve seafoods and salad on giant natural shells. For tablecloth, use fishnet.
- Cold foods should be served cold and the hot ones piping hot. For the Japanese tempura or Sukiyaki, a skillet on a hibachi right on the dining table provides the dramatic touch.
- Don't be afraid to use your china and silver every day. It is only through constant use that silver gains its "patina". Besides, you should enjoy your beautiful things. It can give you that "Cloud 9" feeling.
- Share your recipes with friends, and you will get handsome dividends.

- A poet, to emphasize togetherness, said, "Let me be the echo of your voice, the midnight of your day." In the same way, foods seek partners to attain perfection — like steak and potatoes, beer and barbecue, strawberries and cream.
- For a refreshing summer drink, fill cups with melon balls. Chill. Just before serving, drizzle with syrup flavored with wine.
- When boiling quail eggs, keep the water at a simmer. High boiling temperature makes the shells burst.
- Use native wicker baskets for serving assorted sweets; flower, vegetable and fruit arrangements; fried chicken, shrimp fritters and empanadas.
- Don't overbeat egg whites when making Angel Cake. Whites should stand in soft peaks so that tips bend over when the beater is lifted.
- Add drained canned whole kernel corn to pancake batter, for something different and nice.
- For garnishing purposes, frost grapes. Separate grapes into small bunches, brush with slightly beaten egg white mixed with a little water, then dust with sugar.
- For a quick dessert, serve pieces of left-over cake with fruit sauce or chocolate sauce.
- A perfect refresher on a hot day is a slice of melon with a scoop of ice cream on it.
- Serve foods with flair and drama. The simplest dessert or salad can steal the show on your dinner table.
