THE KITCHEN recipes of Mr. Hizon' (I won't call him his real name as, the modest man that he is, he may prefer anonymity)... I know of no better anthology of Pampango cooking... Mr. Hizon is a meticulous man of the old school, and leaves nothing to chance, especially in matters culinary...

CULTURAL CONCENSUS awards to Pampango cooking the country's culinary laurels... Mariano A. Henson is an old Pampango gentleman who has gathered what is perhaps the best anthology of Pampango cooking. Henson, a historian, genealogist, chemist, and connoisseur, for years tested and recorded all the dishes prepared in his household...

So when Mariano A. Henson, gentleman of the old school came out on Oct. 12, 1968, with a cook book to end all cook books, it was something short of an historical event... Don Mariano leaves nothing to chance, down to the smallest ingredient. The difference between a good cook and a bad one is often a talent for trivial things... Viewed in this light, Don Mariano's cook book (*Ing Cusinang Capampangan*) is also a historical and economic record that evokes nostalgia for the grand old cooks of yore. Grandmothers (and grandfathers) who used to look upon cooking as a source of family pride will undoubtedly regard Don Mariano's book as an occasion to evoke pleasant memories by the stove...

With difficulty I managed to translate at last into English and Tagalog Ing Cusinang Capampangan with the aid of my beloved Capampangan third wife Felisa Lauchengco Henson who is also conversant with Tagalog. In so doing, I strove not to bamboozle the common reader but to choose the simplest words whenever there is a commonly used equivalent for easy comprehension even to the lowest grade pupil who wants to cook and entertain her palate. Hence I repeated measures instead of writing "do" or ditto marks, avoided academic culinary terms like julienne cuts, marinate, dredge, smidgen, shuck (oysters), simmer, crouton, hors d'oeuvre - for the tongue and the palate do not understand rhetoric. To avoid confusion of cloves of garlic with spice of cloves, I wrote clavos de especia for the latter. Only a few selected dishes were lifted from Ing Cusinang Capampangan's 160 and odd recipes like Kari (1), Atsara (118), Fondue (132), Pastel (137) that one must not necessarily be a wealthy Lucius Licinius Lucullus (110?-57? B.C.) to taste Finger Lickin' Pampango Delicacies better nay excellent than a fat dormouse.

RECIPE No. 1

KARI

- 1 buntot ng baka (tail)
- 1 pata (foot and leg)
- 1 nguso ng baka (upper lip)
- 1 librilyo ng baka (3rd stomach or omasum)
- 1 bundle sitao, green slender variety
- 2 pieces young eggplants, elongated variety
- 1 piece puso ng saging butuan, not yet sprouted
- 1 cup peanuts toasted brown, skinless and ground
- 1 cup rice clean, toasted brown and ground
- 3 heaping tablespoons of achuete seeds steeped
in 1 cup water overnight
- 3 cloves garlic peeled, crushed
- 1/2 cup bagoong alamang, whole-bodied not melted
- 1/2 cup cooking oil
- 1/2 teaspoon black pepper powdered
- 1/2 teaspoon salt

In a deep used clay pot boil for 18 hours until tender the clean buntot, nguso, pata and librilyo in sufficient water, cover it and replace the evaporated water now and then. Rub achuete to bring out color, filter and set aside. Remove the rough skins of the puso ng saging and cut puso into desired pieces including the eggplant but the sitao. If the meat is already tender remove and set aside. While boiling drop all the vegetables and parboil 3 minutes, remove and set aside. Chop garlic and saute in cooking oil in another clay pot until brown. Add one at a time and mix: salt, pepper,

RECIPE No. 1 (cont'd)

achuete coloring, peanut, rice on low fire.

Drop meat and stir slowly for 1 minute. Add slowly one-half of the stock (broth). Let boil 5 minutes and lastly add vegetables immediately after pot is removed from fire. The remaining stock can be used as soup mixed with diced pan de sal fried crisp in sauted garlic. The Kari doesn't appeal to the Lucullian palate unless it is pampered with punctuations of its Bagoong Sauce, which follows:

Bagoong Sauce

- 1 cup bagoong alamang (full-bodied) not melted
- 1/2 cup boiled pork with skin, diced
- 2 heads garlic, skinned and chopped
- Juice of 3 calamansi

In another clay pot fry the pork in its own lard and make crackling. Set aside. In low fire saute garlic until brown with this lard and add bagoong and stir continuously. Add calamansi juice and the crackling. Remove from fire immediately.

In a large porcelain bowl dissolve salt in 4 cups water. Soak mango in this solution 2 days or 48 hours. After this, discard used salt water. Cleanse mangoes in water once and drain. In the same bowl, dissolve sugar in 2 cups water. Return mangoes to the sugar solution. Keep one (1) week in refrigerator. Mangoes can be eaten after 3 days. On the 7th day, the mangoes are on their yummiest glory and crispness. Even the pickle solution at this period through cloudy, tastes swell like champagne, due to alcoholic fermentation. A little bit later, the solution undergoes acetic fermentation when it will serve better as vinegar for "paksiew" dishes or as another ingredient with acidic accent. Hence, drain and refrigerate the mangoes.

BURUNG TALANGKA
(Small crab paste)

- 100 female small crabs (Talangka-Thelphusa indica Lath.) from fishponds during July, August, alive bearing reddish-yellow fat (aligi)
10 teaspoons common salt
Juice of 6 kalamansi, filtered

In a clean clay pot "palayok" dump the talangka and pickle them with salt, turning with a wooden ladle (sandok). Cover with clay or tin lid. Let them stand 24 hours rinse them in running water. With clean bare hands pry open the back case (carapace) of the crabs. Scrape the reddish-yellow fat with fingers and empty into a porcelain tumbler with handle. Discard the crabs with black fat. Then fold the abdomen outside so as to expose the fat and squeeze it with thumb and fingers and empty into the tumbler as before. When finished add and stir the kalamansi juice. Bury to 2/3 level the tumbler through steaming rice while half cooked, cover. Before eating, always heat talangka paste in this way to avoid possible bowel and stomach resentment.

No better accompaniment than Wagwag-Malagkit rice steamed.
